

Medical Detection Dogs

Patron: HRH The Duchess of Cornwall

Dogs saving lives

Brian will one day save lives using his amazing sense of smell.

You could be part of the team that helps him reach his goal.

Medical Detection Dogs trains dogs to detect the odour of human disease. Our dogs support people with life-threatening health conditions, saving their lives daily.

Volunteers are essential to our work, doing vital jobs like fundraising, supporting at local events and being speakers for the charity in the local area.

Would you like to help? We'd love to hear from you!

For more information on volunteering opportunities please contact your local Volunteer Coordinator, Sara.
